**Professor Sanjay K. Sharma, FRSC**

**Heavy Metals In Water: Presence, Removal and Safety, Edited by Sanjay K. Sharma, 2015, Print ISBN: 978-1-84973-885-9, PDF eISBN: 978-1-78262-017-4**

**A Handbook of Applied Biopolymer Technology: Synthesis, Degradation and Applications, edited by Sanjay K Sharma and Ackmez Mudhoo, 2011, Print ISBN: 978-1-84973-151-5, PDF eISBN: 978-1-84973-345-8**

The Royal Society of Chemistry is the major society book publisher in the chemical sciences – a not-for-profit organisation dedicated to supporting the global scientific community, advancing excellence and shaping the future of the chemical sciences for the benefit of science and humanity. We rely on expert editors and authors to achieve our aims for disseminating scientific knowledge to the community.

Professor Sharma has made significant contributions to the above aims, for which we are very grateful. Professor Sharma has recently edited a book on the presence, removal and safety of heavy metals in water, an important topic addressing an aspect of the current global challenge of water contamination, and he has also co-edited a detailed and informative handbook of applied biopolymer technology. It has been a pleasure to work with Professor Sharma, and I recommend anyone with an interest in how chemical sciences can solve important societal problems to view his books.
